

ANNUAL  
REPORT

Town of

RICHMOND

New Hampshire

1955

## The Cover Picture . . .

Shown on the cover of this report is a picture of Richmond Community Church, built in 1836-37 with brick kilned at the Thayer Brick Yard, once a thriving industry in this town.

Owned by various denominations through the years the physical properties of the church deteriorated to the point where its use became negligible.

Through the efforts of several public minded citizens and a wonderful community spirit, some \$5000 was raised the past two years through gifts, public suppers and auctions.

This money has been used to good advantage in restoring the building and making it again available for church purposes and community promotions.

## Report of the Fire Chief

---

We had two small forest fires and a few chimney fires during the year and we lost one house by fire. We had a very dry summer this last year and were lucky not to have had more fires. We bought 2 canvas 300 gallon water bags, which was the extent of the purchases for this year.

Respectfully submitted,

LEONARD B. ROBBINS

Fire Chief

The above tables indicate that our enrollments will not increase much during the next five years. However, the picture could change quickly by families moving into or out of Richmond. The possible future enrollments are merely intended as a guide to aid the citizens of Richmond in their thinking and planning.

We have been fortunate in having Swanzey accept our upper four elementary grades. This has enabled Mrs. Maxwell to have an enrollment in the lower grades small enough for efficient instruction. That the education of Richmond elementary school pupils has not been neglected is attested by the fact that recent reports from the Keene High Schools show that Richmond students there are doing creditable work.

Swanzey has its school housing problems also. How they are solved will have an effect on Richmond. As was mentioned in last year's report, unless Swanzey's school facilities are expanded, the time is approaching when Swanzey might not be able to accommodate us. The citizens of Richmond should be ready to face this possibility.

If the school at North Richmond is to be used for some time to come, it would be well to consider improving its facilities. Running water and flush toilets are not luxuries in the latter half of the twentieth century.

School housing problems are not peculiar to Richmond. Ten years ago our national Census Bureau believed that the population of the United States would not reach 165,000,000 until the year 2,000 and perhaps not then. This figure was reached on May 27, 1955. Our population increase, with attendant increases in the numbers of children, makes for ever increasing enrollments in our schools.

Quoting Walter Lippmann—"We have to do in the educational system something very like what we have done in the military establishment during the past 15 years. We have to make a break-through to a radically higher and broader conception of what is needed and what can be done . . . we

must make the same order of radical change in our attitude toward education as we have made in our attitude toward defense. We must measure our educational effort as we do our military effort. That is to say, we must measure it not by what it would be easy and convenient to do, but by what it is necessary to do in order that the nation may survive and flourish. We have learned that we are quite rich enough to defend ourselves whatever the cost. We must now learn that we are quite rich enough to educate ourselves as we need to be educated."

In conclusion, I wish to express my appreciation to the teacher, pupils and parents, the School Board and the patrons of our school for their cooperation.

Respectfully submitted,

CHESTER C. LEES
